

**Valencia Animal Clinic**  
**1533 E. River Rd**  
**Belen, NM 87002**  
**(505) 864 – 4075**

I have been informed and understand that the minimum charge for today's procedure is \$200. This amount includes IV Fluids, 45 minutes gas anesthesia, and scale/polish. I **must** be available by phone to talk with the doctor once this procedure is complete in order to discuss any recommended treatment and any additional costs. No additional work/charges will be performed without my consent.

We are dentists, orthodontists, and oral surgeons depending on what your pet needs. **Charges may range from \$200 to \$1500+**. For this reason, we **must** discuss a treatment plan with you while your pet is under anesthesia.

We sincerely understand the impact of the charges on your budget. Therefore, in the best interest of your pet's health and your finances, we must decide together how we are going to proceed. In some cases this may mean doing all the work, dividing the work into multiple treatments, or doing none of the work.
